Scrap4Free Skip Hire – how it works

Digital waste transfer notes for skip hire firms and waste carriers. Each driver makes the note on their own phone at the job, the customer signs, and the office sees every note in one place. No app to install – it runs in the phone's browser, with the same screens as the Scrap4Free app.

Office / owner · Driver · Customer · Yard / site · Scrap4Free · Automatic

1 Set up – once, about 10 minutes

Office / owner
Apply
At **scrap4free.co.uk/skip-hire**: business details, waste carrier registration, choose a plan.

›

Scrap4Free
We check and approve
We check the registration on the Environment Agency register and email a login.

›

Office / owner
Set your password
Your 30-day free trial starts. Your carrier details are already filled in.

›

Office / owner
Add your drivers
Name, email, usual vehicle. Each driver gets their own invite. Drive yourself? Tick "I also drive".

2 Every job – on the driver's phone, at **scrap4free.co.uk/skip-hire/login**

Driver
Collected a load
Driver taps "Collected a load" → "A job not booked through Scrap4Free".

›

Driver
Customer's details
Name, address, postcode, and email if they'll sign later.

›

Driver
Items and codes
Pick the waste (EWC code found for you), weight, container and notes. Add more items if needed.

›

Customer
Customer signs
Sign on the driver's phone now, show the full note, or send it by email to sign.

›

Automatic
Done
Note saved with the driver's name and vehicle. Customer gets their copy by email.

3 At the tip or yard – optional

Driver
I'm at the yard
Driver picks the loads they're tipping, filtered by date or waste type.

›

Driver
Show or send the QR
Yard scans the QR, or it's emailed to the yard, with every load's details.

›

Yard / site
Yard has the paperwork
The receiving site has the notes it needs for its own records and Defra reporting.

4 In the office – any computer or phone

Office / owner
Home
Notes today and this week, notes waiting for a signature, drivers used on your plan.

›

Office / owner
All notes
Search and filter by driver, date or status. Edit, correct or cancel a note – every change is logged with a reason.

›

Office / owner
Download
Every note to a spreadsheet that opens in Excel. Open or print any note.

›

Office / owner
Manage drivers
Add, remove (they're logged out at once – notes are kept) or restore drivers.

Who does what

Everyone uses their own login. Nothing to install.

Who	What they do	What they need
Office / owner	Applies, adds and removes drivers, sees and downloads every note, chooses the plan. Can also drive and make notes with the same login.	Your waste carrier registration. An email address. Any computer or phone.
Driver	Makes the waste transfer note at each job and gets the customer's signature. Uses "I'm at the yard" when tipping.	A smartphone with internet and their invite email. No app to install.
Customer	Checks the note and signs – on the driver's phone, or by the link in their email. Gets a copy by email.	Nothing – no login.
Receiving yard / tip	Scans the driver's QR code or receives the loads by email.	Nothing – no login needed.
Scrap4Free	Checks your registration, sets up your account, helps if anything goes wrong.	–

Plans – every plan is free for 30 days

Starter
£39.99
a month · up to 3 drivers

Team
£89.99
a month · up to 10 drivers

Fleet
£179.99
a month · up to 25 drivers

- **Every plan includes:** each driver's own login, notes signed on the phone or by email, every note stored and searchable, spreadsheet download, customer copies by email, office view by driver.
- **Change plan any time** in Settings – the owner counts as a driver place only if they tick "I also drive".
- **Mistakes are easy to put right:** correct a signed note and the customer signs the corrected version; cancel an unsigned one and its signing link stops working. Every change is kept in a change log.
- **Receive waste on site too?** Add Defra waste receipt reporting for **£19.99 a month** in the same login (choose "Both" when you apply).

When the trial ends: there are 7 extra days to subscribe. After that, drivers can't save new notes until you subscribe – but every note stays viewable and downloadable.
